Oliver is on the speed dial for presidential families, philanthropists, and change makers worldwide. He's also often referred to as one of silicon valley's "best kept secrets" and is the behind the scenes "Spiritual Advisor" for some of the most well-known billionaires, CEOs, and tech founders.

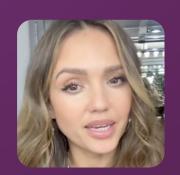

PERSONAL DEVELOPMENT GURU TONY ROBBINS SAYS:

"OLIVER IS A GIFTED HEALER, WHOSE ENERGY HEALING
PRACTICES WOULD BENEFIT THOSE LOOKING TO
EXPERIENCE MORE JOY, INNER PEACE, AND WELLNESS IN
THEIR LIVES."

ACTRESS AND BUSINESSWOMAN JESSICA ALBA SAYS:

Oliver is known for his signature "1 Day Healing Experience" where he spends an entire day healing anywhere from 2,000-5,000 people at the same time.

In this event, Oliver work's on removing energetic blockages trapped deep in the body as a result of traumatic life events, gestational trauma, generational trauma, or environmental trauma.

His healing usually takes effect after one session, rather than over a course of a long period of time.

People have walked away from this event reporting "instant and life-changing results" because they've experienced more progress and healing in one day than they've had in decades.

### HERE'S WHAT SOME OF THE ATTENDEES OF OLIVER'S HEALING PROGRAMS HAVE SAID:

"I have released a lot of anger, and that has allowed me to find more love. I don't hold any grudge or hate toward people that hurt me."

"When I think of events that trigger me, that hurt the most, I'm not feeling that reaction anymore. I'm not feeling the hurting, it's like neutral"

"I've gone from suicidal all the way
up to, you know, I'm definitely going
to forward my business. I had joy for
the first time in my life"

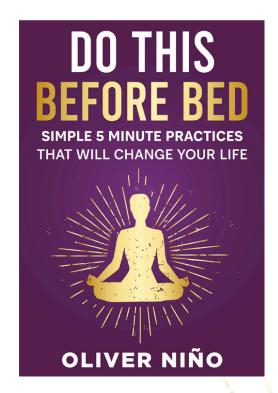

"I have a sense of deep peace, joy, and gratitude."

"I don't have any more fibromyalgia pain. I just jumped out of bed this morning"

"I have a lot of energy right now."

One participant with severe back damage shared that, for the first time since 2003, she experienced no pain throughout the retreat. She expressed her surprise and joy: "It hasn't hurt, and it's always hurt since 2003. Yesterday I was dancing"

This has led teams of researchers to study his unique healing methodology.

Oliver can also perform a live energy reading on the host, where he tunes in and uses his skills as an "Energy Medium" to discover the areas in the body where energy is trapped. It takes Oliver 7–14 seconds to scan the entire body for blocks. His hands will be 1–2 feet away from each area, scanning the entire body for blockages,

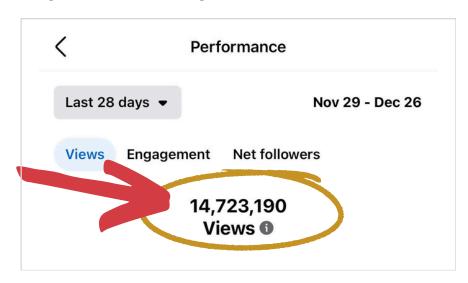

then he shares the blocked areas, along with the spiritual messages and remedies for each area. This energy reading can be done both inperson or virtually, and is a great way to demonstrate Oliver's gift and expertise in the moment.

#### The Sacred Boom

With the demand for mystical services on the rise, a growing number of women are channeling their spiritual gifts into full-blown careers.

It's in the stars—and the data: After last year's massive social and economic upheavals (COVID-19, a contentious election, rampant racism and discrimination), many women are reconsidering their priorities and seeking different ways to find purpose; some are using their own spiritual gifts (and business prowess) to help. According to Google Trends, the number of searches for the word *psychic* in the U.S. peaked in March 2020. And research firm IBISWorld estimates the market for psychics will total \$2.2 billion by the end of 2021. Oliver Niño, 35, a healer based in Sedona, Arizona, and Laguna Beach, California, whose clients include Demi Moore and Laura Dern, says there's been a tremendous surge in demand for his 30-day online course (which features lessons in how to shield yourself from others' energy) and eight-week energy-healing certification program. Of the 5,000 total sign-ups, about 95 percent are women, says Niño, who has gained half a million new followers on TikTok since November.

### Colorado-Based Healer Oliver Niño on How To Clear and Protect Your Energy

In his new book, Oliver Niño, aka the Spiritual Activator, outlines some of the strategies—from child's pose to crystals—he teaches to online and in-person students from his southwestern Colorado retreat center.

Starting with the title, Spiritual Activator: 5 Steps to Clearing, Unblocking, and Protecting Your Energy to Attract More Love, Joy, and Purpose—released by Oliver Niño, aka the Spiritual Activator, in March—can sound a little esoteric. But the author and energy healer, who resides near a 40-acre retreat center in Dolores he purchased in 2020, says his methods aren't as arcane as they might seem.

"I like to take it from the basics," Niño says. "If you're talking to your parents on the phone or a loved one and you get into a heated argument, how do you release the negativity?" His suggested strategies include solitary walks in the woods, salt baths, journaling, and laughter.

"If somebody's never picked up a crystal or used incense and done energy work, it doesn't mean that they can't clear their energy," Niño says. "We're all born with different tools that feel natural to us. For some people, they love moving their bodies, right? They like exercising, yoga, dancing. Moving the body is a great way to move energy."

The 5 Most Common Spiritual Gifts—& How to Identify Them.

AUTHOR: OLIVER NIÑO

#### What Are Spiritual Gifts?

A spiritual gift is just that—a gift.

Given to you from the spiritual world to use to move forward the greater good of humanity. Your gift was given to you to help you as you navigate through life and fulfill your destiny.

These gifts can take any number of forms, but there are five spiritual gifts in particular that most people lean toward—channelers, transmuters, psychics, hands-on healers, and Akashic records.

The moment you start accepting, exploring, and embracing your gifts... everything will start to change.

Your intuition will grow stronger. Your energy will be lighter. Your purpose will be more clear.

But before you can accept and embrace your gift, you first have to discover which spiritual gift you have.

### "Supernatural Origins"

### **OLIVER'S STORY**

Originally from Manila, Philippines, Oliver moved to California after graduating from high school. He grew up in a Catholic family, though Oliver realized they had innate supernatural gifts that most other families didn't. His grandfather could channel the souls of dead relatives, his father could channel energy by using his tongue to communicate its sound frequency and his mother would have premonitions in forms of dream that would always come true. Around the age of seven, Oliver began to have his own curious encounters. He instinctively knew what people around him thought and felt, picked up on the presence of spirits in the room, and saw silhouettes of angels and other light beings too.

### "The Spiritual Awakening"

After two years in the United States, he was introduced to a psychic named Christel and an energy healer named Nick who reopened Oliver's mind to the power of spirituality. Christel recommended Oliver take a trip to Sedona and, while there, hire a shaman tour guide. The shaman took Oliver's group to the top of vortex points, and when Oliver climbed to the peak of a small vortex point, he was almost immediately overcome by a very strong energy that rose up from the earth. Not only were his past traumas coming to the surface, but he saw a variety of sacred geometry symbols appear in his mind's eye out of nowhere. After a half hour of this, he finally opened his eyes and the symbols disappeared-but were replaced by the physical presentation of energy. This was the moment that initiated a clear connection with Oliver to a higher power, because the images and visions kept coming.

#### "The Birth of a Healer"

Four days after his trip to Sedona, he began to experiment with energy healing on himself using the various sacred geometry symbols that were revealed to him and it worked. He felt rejuvenated, clear, energized, and positive about his future and began doing healings on friends and family members.

His abilities spread through word of mouth and he ended up doing over 10,000 free sessions over a ten-year period.

"Currently, Oliver has conducted over 40,000+ healing sessions"

"Spreading Love Around the World"

In 2016, Oliver launched the Geo Love Healing program, which is a 8-week, comprehensive certification program that teaches you how to use energy to

get answers from your intuition and guides, heal yourself, gain mental clarity, remove energy blocks, and unlock synchronicities to tap into the effortless flow of your life.

Now, Oliver leads sold-out Geo Love Healing workshops and teaches packed, online sessions to clients all over the world.

### "Family & Philanthropy"

Oliver is happily married to Mandy Morris, author, international life strategist and philanthropist. Oliver credits Mandy with motivating him to shine his light to guide others in their spiritual awakening.

When Oliver isn't healing the masses, he enjoys traveling with his three children and family. He and his wife Mandy are the co-founders of the Hustle and Heart Foundation which aims to change the world, one act of kindness at a time. Currently, they have self-funded over 60+ initiatives in the Philippines, Africa, and USA.
